MAYON VOLCANO OPERATION ACTIVITY/MONITORING REPORT 4-2026

January 8, 2026, 5:00 PM

I. BACKGROUND INFORMATION

ALERT LEVEL STATUS : **3**

VOLCANIC EARTHQUAKE : 1

ROCKFALL EVENTS : 162

PYROCLASTIC DENSITY CURRENT (PDC) - 50

SULFUR DIOXIDE FLUX : 702 tonnes/day on 5 January 2026

The Volcano edifice is inflated and the trail of emission is moderate on northeast drift.
[PHIVOLCS]

- DOST-PHIVOLCS recommends that the 6-km radius Permanent Danger Zone (PDZ) be evacuated due to the danger of PDCs, lava flows, rockfalls and other volcanic hazards. Increased vigilance against pyroclastic density currents, lahars during heavy and prolonged rainfall and sediment-laden streamflows along channels draining the edifice is also advised. Civil aviation authorities must also advise pilots to avoid flying close to the volcano's summit as ash from any sudden eruption can be hazardous to aircraft. [PHIVOLCS]

II. CASUALTY REPORT

III. STRANDED PASSENGERS

Casualty	No. of Persons	Remarks	Air Ports	No. of Persons	Remarks
Dead	0				
Injured	0	No casualty reported	Bicol International Airport	0	No strandee
Missing	0				

III -EVACUATION REPORT

9. EOC activated and is placing cluster teams/ task force on standby status/Phil. Army in place for further instructions.

X. DOCUMENTATION

The APSEMO Research Team was pleased to accommodate the request from the University of the Philippines Los Baños (UPLB) PULSE Project team today. A productive discussion was done for their research on climate cooling technologies which provides opportunities to explore potential collaboration in the province.

APSEMO, on behalf of the Provincial Government of Albay (PGA), distributed 4 family tents to the Local Government Unit (LGU) of Malilipot, Albay.

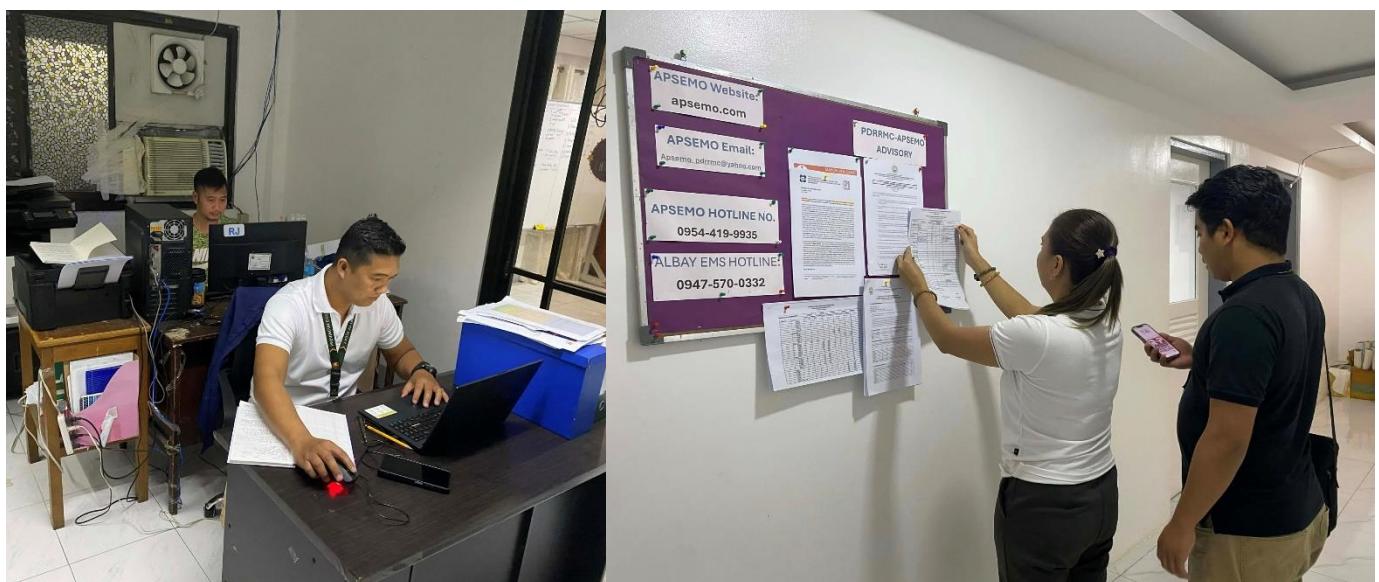

The tents are intended to support displaced families affected by the current Alert Level 3 status of Mayon Volcano. The family tents were sourced from the Department of Social Welfare and Development (DSWD) through the Office of Civil Defense (OCD) Region 5.

This initiative aims to provide temporary shelter to families who have been evacuated due to the volcanic activity.

APSEMO continuous 24-hour Monitoring of Response Operation and coordination, re: Mayon Alert Level No. 3 status.

Now posted are the activity monitoring and evacuation report as of January 9, 2026. 5pm.

Checked in for 24-hour monitoring at the Albay PDOC are the Uniformed Personnel from PNP and Phil Army.
